

Please follow these instructions to install Swift.Sort on your PC/Server:-

1. Download the latest installation package from the Software Bureau website: <u>www.thesoftwarebureau.com</u> and save it to your computer.

2. Launch the installation package and follow the instructions.

3. Depending on your system configuration, it may be necessary for the installer to install/upgrade your .NET Framework components. Swift.Sort requires .NET Framework 4 or above.

Clicking OK will launch the .NET installer.

4. Once .NET is installed the Swift.Sort installation will continue.

4.1 Accept the terms of the Licence Agreement and click Next.

4.2 Fill in your User Information and click Next.
